TECHNICAL SKILLS

- **Languages:** HTML 5, CSS 3, JavaScript (ES6+), TypeScript, SCSS.
- **Frameworks:** Angular (v10+), Angular Material.
- **Libraries:** RxJS, Observables.
- **API Intergartion:** RESTful APIs, JSON
- **Tools:** Visual Studio, Visual Studio Code, Angular CLI
- **Concepts:** Component-Based Architecture, Lazy Loading, Reactive Forms, Responsive Design, Cross-Browser compatibility, Code Optimization
- **UI/UX Collaboration:** Worked closely with designers to implement user-friendly and responsive interfaces

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS Certified Solutions Architect - Associate
- Robotics Automation
- HTML5 Certification
- Web Design & Development

EDUCATION

M.B.A SYSTEM MANAGEMENT

Madras University 2022 - 2024

B.E Computer Science and Engineering

SRM Easwari Engineering College 2017-2021

LANGUAGES

- Tamil (Native)
- English (Fluent)

PROFESSIONAL SUMMARY

Front-End Developer with 4+ years of experience in Angular, TypeScript, and RxJS, building scalable, high-performance, user-friendly web applications. Skilled in reusable components, performance optimization, and REST API integration. Adept at collaborating in Agile teams to deliver clean, maintainable solutions.

PROFESSIONAL EXPERIENCE

TATA CONSULTANCY SERVICES

DEC 2021 – PRESENT

Client: City Union Bank, Central Bank Of India, Tnsc Bank

Role: Front-end Developer

- Working as a Front-End Developer on the City Union Bank project, building scalable and high-performance web applications using Angular (v10+).
- Developed feature-rich Angular applications using best coding practices, optimization techniques, and browser caching.
- Designed and implemented responsive, mobile-first user interfaces ensuring seamless experience across devices and screen sizes.
- Built reusable Angular components, modules, and services following component-based and modular architecture.
- Integrated RESTful APIs and handled JSON data to develop dynamic, data-driven applications and dashboards.
- Implemented role-based access control (RBAC) using Angular route guards and services for secure user management.
- Developed banking modules such as fund transfer, transaction history, and user profile features.
- Used RxJS and Observables to manage asynchronous operations and data streams efficiently.
- Migrated legacy applications to Angular 14, improving performance, scalability, and maintainability.
- Applied lazy loading and other optimization techniques to enhance application performance.
- Worked with Git for version control and collaborated in Agile/Scrum environments.
- Participated in sprint planning, code reviews, and UI/UX discussions to deliver high-quality solutions.
- Experience with Reactive Forms, form validation, Angular lifecycle hooks, and change detection strategies.
- Ensured cross-browser compatibility and followed best practices for clean, maintainable, and scalable code
